## Editor/Publishing House 2025

### 1 Brief Description

Rail Business has been published for over 17 years now. It is the **weekly industry report** for the entire rail transport market. The focus is on both the freight and passenger transport, being operated by federal railroads as well as private railroads.

#### Exclusive Reporting:

Rail Business is published in print version as well as locked pdf and provides newsletters, background reports, interviews and comments on all relevant areas of rail transport: politics, law, rail companies, industrial companies, operation, infrastructure, technology, personals, services (consulting, financing, leasing), associations and events.

The weekly industry report is supplemented on Mondays to Fridays by an email-based news service as well as current breaking news. Extras on key topics appear regularly. Rail Business is primarily intended for decision-makers and manager of railroad undertakings (EVU) and railroad infrastructure companies (EIU), purchaser of local rail passenger services, the shipping industry, the railroad industry, service providers, transport policy and the relevant public institutions and associations, particularly in the Central European German-speaking area.
